McMillan Township is on the Web

We are pleased to announce that McMillan Township has developed a new interactive website with the help of Velvet Green Creations. The website was created utilizing RWD Responsive Web Design techniques so that the website detects what type of device you are on and gives the browser the best viewing experience. So whether you are on a tablet, smart phone or just at home on your PC, you will easily navigate throughout the site.

The McMillan Township website offers a variety of interactive tools for the community including: Online Tax Search, Board of Directors, Maps page that shows our location within Luce County and the stages of growth in Newberry — both in which are also available as PDFs, Board Minutes, Photos of our Township Hall and our area, Events Calendar, and a host of resources for the people of McMillan Township to utilize. Also, if you are new to the area, please visit the Our Location page to view both a Google street map and a satellite view of where we are situated in the Upper Peninsula of Michigan.

The Township is also providing a great advertising opportunity that is affordable and available on every regular page of our website (excluding PDFs) 365 days a year. Our Banner ad placement is located below the content area. Ads slide through ensuring visibility for all who join up with us. These banner ads help support our Township and bring people to our local businesses and organizations. All banner ads are clickable directly to your website or facebook page.

Our Resources page will provide many links to demographic information, Absentee Voter Application, Principle Resident Exemption, along with Veteran's Property Tax Exemption.

At the bottom of the page, there will be additional links to important organizations, groups and services that can help us remain a strong community. We thank you for visiting and we wish you a happy and productive New Year in 2021.
